

Photomontage Booklet for Proposed Bellair Wind Farm

Summer/Autumn 2026

Powering
Green Energy
Together

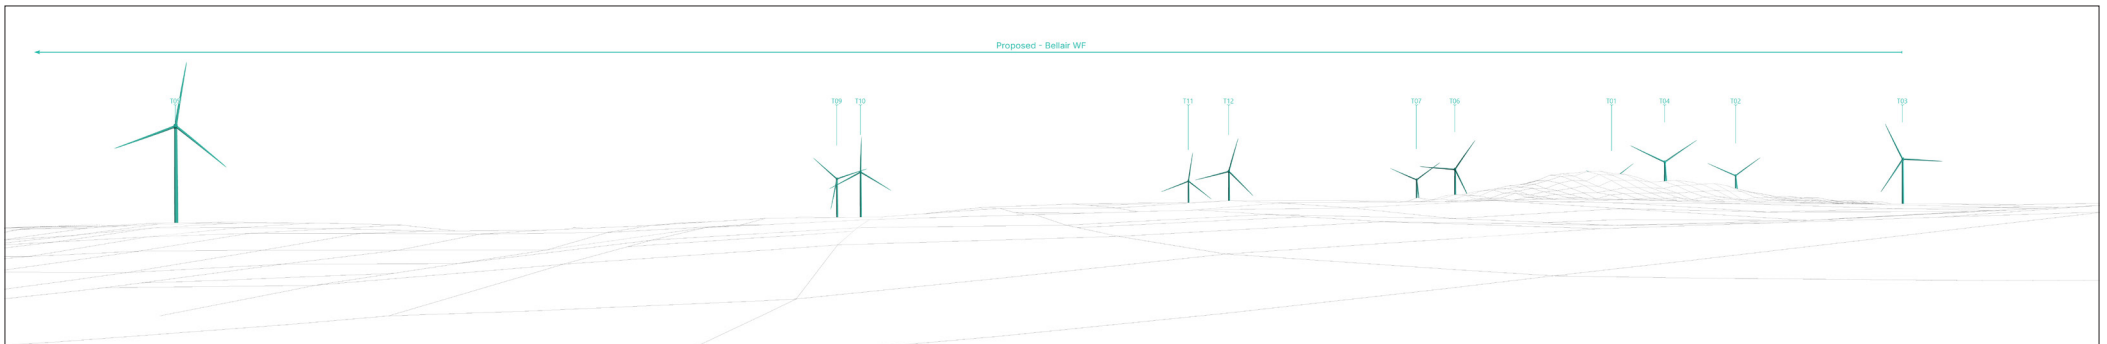

Viewpoint 1: View from Kilbride Manor housing estate in Clara - approximately 7.6km east of the nearest proposed turbine. **VP1** on Viewpoint Locations map.

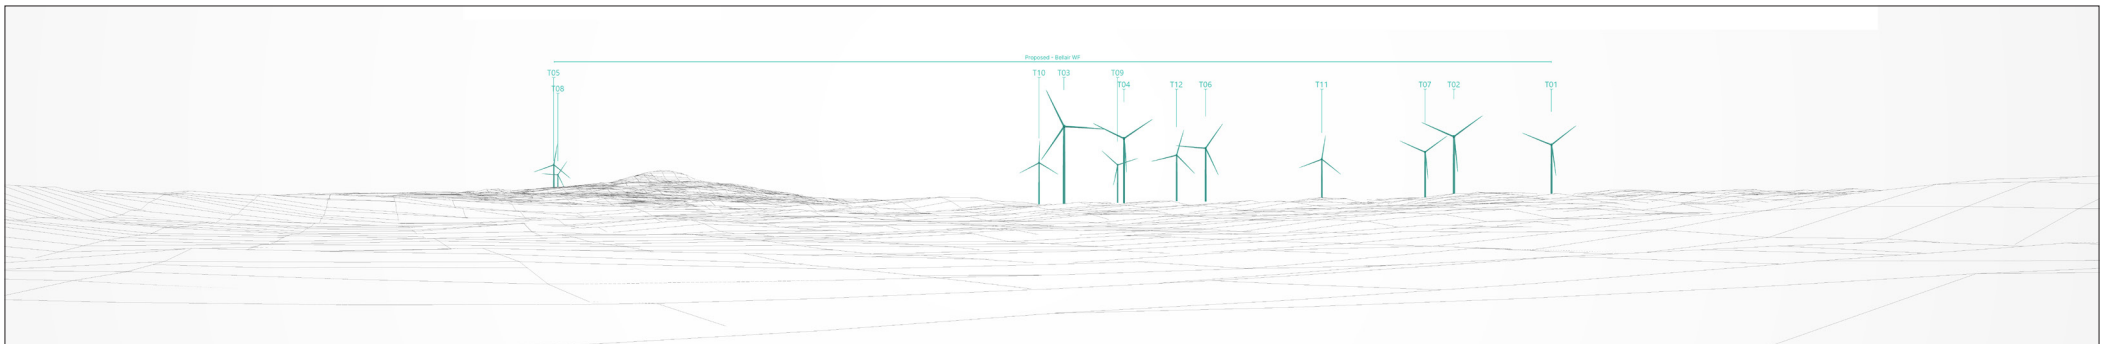

What is a photomontage?

A typical tool utilised in the assessment of the visual impact of a wind and solar project is a Photomontage. Photomontages are visualisations that superimpose an image of a proposed development upon a photograph or series of photographs and are used to illustrate the potential impact of a development on the existing landscape.

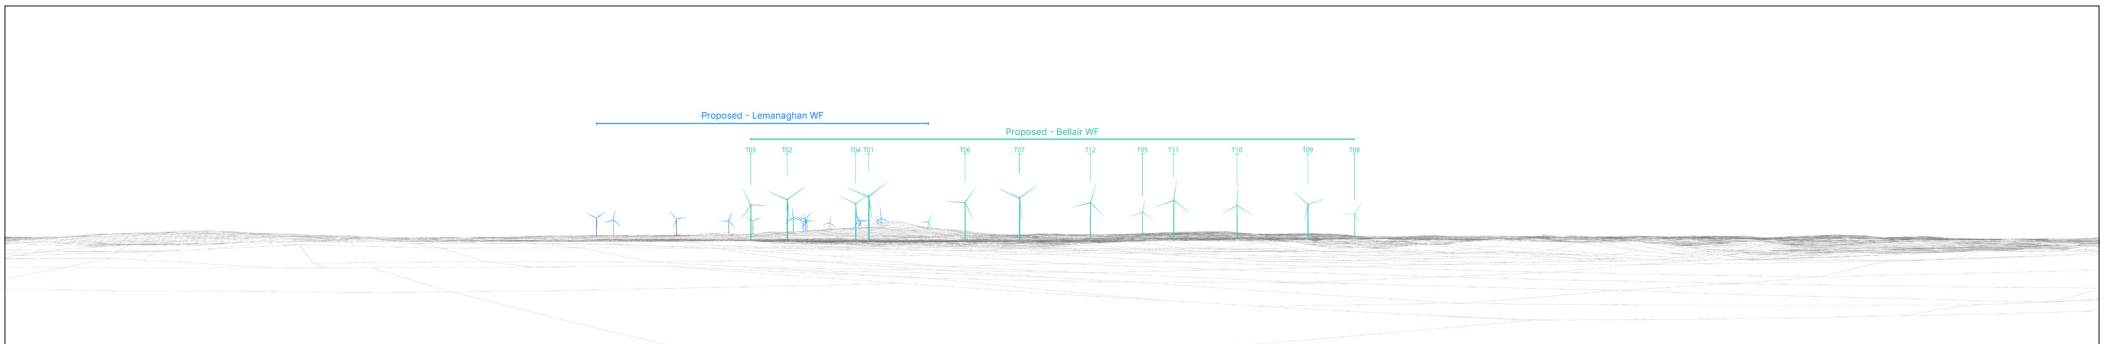

A number of photomontages will accompany the planning application as part of the Landscape and Visual Impact Assessment (LVIA) for the proposed project. Within this booklet you will find samples of the photomontages which will form part of the LVIA for this proposed development. To view a larger copy of the viewpoint map shown here please refer to the A2 double sided map.

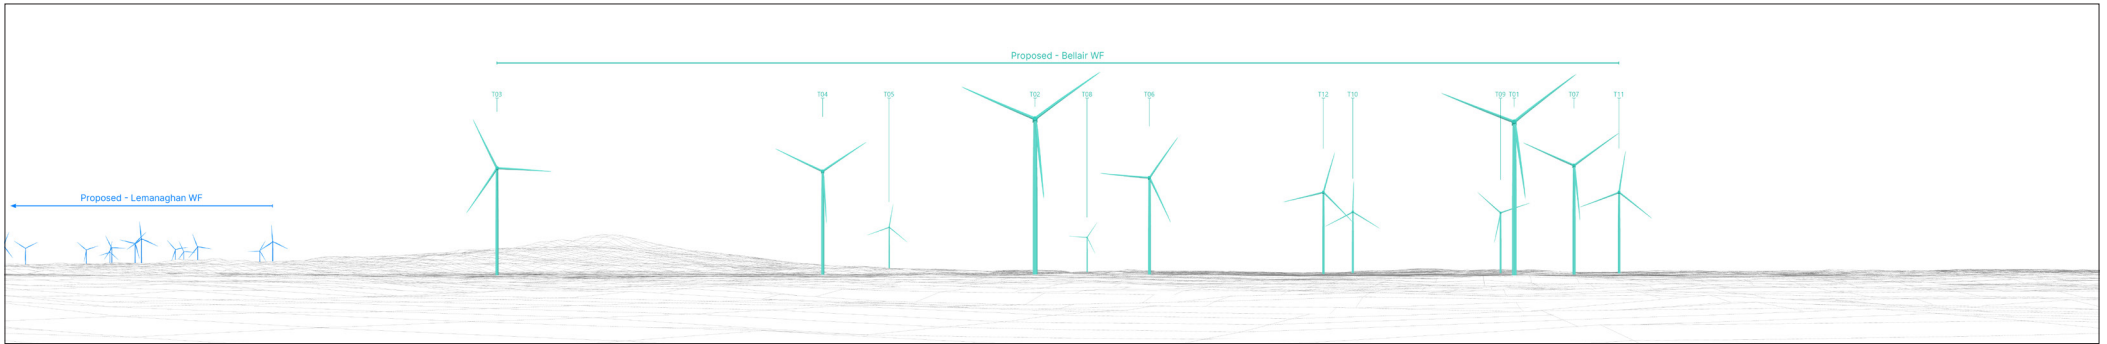

Viewpoint 2: View from the townland of Cappanalosset at the junction of the L7001 and L7002 local roads – approximately 1.5km southeast of the nearest proposed turbine.
VP2 on Viewpoint Locations map.
